Mission

What is the ultimate goal your project is trying to achieve? How does it connect to local needs in the community? How does it connect to larger global challenges around the world today?

Stakeholders

Who needs to be involved in your project to help ensure that it is a success? Who will benefit? Who can your partner with at the local, regional, and global levels? Who can influence the outcome?

Concept

How will you accomplish your mission? What is your big idea? What conceptual details can you share for others to visualize what you will do to fulfill your project's stated mission?

Activities

What are the core activities that will need to take place to bring your project to life? For larger projects, how can you organize participants into teams to ensure that everyone has a role to play?

Vision

Where are you headed? How has the world changed after you have accomplished your mission and how will this change be sustained? How will you define your project's success?

Resources

*What funding will be needed to support your project?
What supplies will be required for the activities?
What tools and equipment may be needed?*

Timeline

What is the general timeline for your project to accomplish its objectives? What are the specific activities and milestones that need to be reached?
